Parkour civilization

We have attempted to peacefully negotiate for a change in the leadership and structure. This has been met with a permanent stance by you. We also notified you that if you would not negotiate, our work will be taken down. Now that you have refused to respond to our demands and ultimatum, we find no other option available other than making good on our words and deleting all traces of our work from this project.

→ We will no longer access the SEKAI Fashion server or any of the socials. We will update our content with a new layout and post it elsewhere. We will mention you in our intro post as the original creator of SEKAI Fashion and explain why we have split. We will no longer interact with SEKAI-Fashion, so please do not try to start any discussions with us.

→ And finally, we wanted to clarify something. It was never about you as a person or as a designer. It was you as a **manager**. Not only were you **failing** to organize people, promoting Mel just to keep us afloat, you were **failing** to listen to feedback. **You failed** to upload on time. **You failed** to communicate new changes. **You did not manage**. **You ruled with an iron fist**. **You saw us as disposable**. Your response to our original letter was to **ignore** it and never respond. We **quietly** submit. We work for your benefit and your validation. Our hours and days are **ignored** and our feedback **silenced**. That letter that you hate? It's the first thing that made the oldest members feel hopeful about the project again. And you crushed it. As such, we're now in extreme burn-out. **You may have a vision**, but you never clearly share it. We never had a vision. **Let the project their own**. How long did you think we could keep running on an empty tank?

In another universe, where we could have had **constructive discussion**, this team could have **continued** longer. We could have been **best friends** working together online then meeting up offline. Cane enjoyed watching that Evangelion episode with you and listening to you explain everything. Amia enjoyed reposting the leaks and staying up until 4AM to see your reaction. **This future can still happen**. It just won't be with you as our leader.

The background is a vibrant blue field filled with a pattern of overlapping circles and arcs. These shapes are rendered in various shades of blue, teal, and light green, creating a sense of depth and movement. Scattered throughout the composition are numerous small, glowing blue spheres, some of which appear to have a bright green or yellow center, giving the impression of distant stars or particles in a cosmic or digital space.
